LEGISLATION—A group of people, including children, are standing in front of a large, ornate structure, possibly a monument or a large house, during a public event or ceremony. The structure is made of wood and has a large, ornate roof. The people are standing in front of the structure, and some are holding up their hands in a gesture of celebration or approval. The scene is outdoors, and the background is a clear sky.

RP math aces place 4th in int'l tilt

By Joey B. Sison

High-achieving Filipino students took home the top prize in the 1995 International Mathematics Olympiad (IMO) held in Hong Kong. The team, consisting of six students, won the gold medal, placing the Philippines fourth overall among 90 participating countries.

Team Results by Country

Country	Gold	Silver	Bronze	Points
United States	4	1	0	100
China	3	2	1	95
France	2	3	1	85
Philippines	1	2	3	75
Other countries	0	0	0	0

Team Results by Province

Province	Gold	Silver	Bronze	Points
Manila	1	1	1	30
Other provinces	0	1	2	45

The Philippine team, consisting of six students and their coaches, posing for a photo after winning the gold medal.

The Philippine team, consisting of six students and their coaches, posed for a photo after winning the gold medal. The students, who are all from the Philippines, were accompanied by their coaches to the competition. The team's success is a testament to the high level of mathematical education in the Philippines.

Manila's Army at 50th Anniversary

The Philippine Army celebrated its 50th anniversary with a series of events in Manila. The celebrations included a parade, a concert, and a series of seminars. The Army's 50th anniversary is a significant milestone in its history, and the events are designed to honor its past and look to its future.

Jack of the seas an ace bartender

The first time I met the man who would become my husband, I was in a room full of people. He was the only one who looked at me and smiled. He was the only one who knew my name. He was the only one who knew my heart.

Figure 1 is a line graph illustrating the relationship between the number of days of rain and the number of days of sunshine. The X-axis represents the number of days of rain, ranging from 0 to 10. The Y-axis represents the number of days of sunshine, ranging from 0 to 10. The data points are plotted as follows:

Days of Rain (X)	Days of Sunshine (Y)
0	10
1	9
2	8
3	7
4	6
5	5
6	4
7	3
8	2
9	1
10	0

A straight line is drawn through these points, showing a negative linear correlation. The line starts at (0, 10) and ends at (10, 0).

Resurrecting the dead

Figure 1 consists of two bar charts. The top chart is labeled 'Total' and the bottom chart is labeled 'Non-Total'. Both charts share the same x-axis, which represents age groups: 18-24, 25-34, 35-44, 45-54, 55-64, and 65+. The y-axis represents the percentage of respondents, ranging from 0 to 100. In the 'Total' chart, the percentages are approximately: 18-24 (10%), 25-34 (20%), 35-44 (30%), 45-54 (25%), 55-64 (15%), and 65+ (10%). In the 'Non-Total' chart, the percentages are approximately: 18-24 (10%), 25-34 (15%), 35-44 (20%), 45-54 (15%), 55-64 (10%), and 65+ (10%).

North Korea leader Kim misses major event anew

Pyongyang, N. Korea (AP) — North Korean leader Kim Jong-il missed a major event in his country's history for the second time in a row, as he stayed in his mountain retreat on the day of the 50th anniversary of the founding of the Democratic People's Republic of Korea.

Kim, 37, was not seen at the ceremony in Pyongyang, which was held in the presence of the country's top leaders. He was last seen in public on Monday, when he attended a meeting of the Politburo of the Workers' Party of Korea.

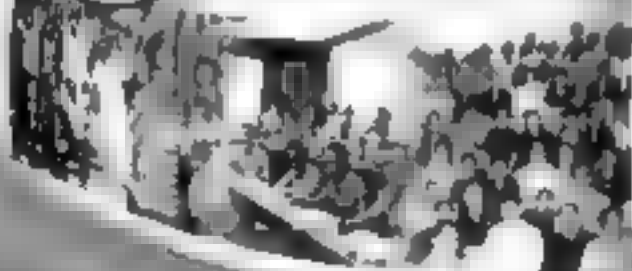

Kim's absence from the ceremony was a surprise, as he has been known to attend major events in the past. His absence was also a surprise, as he has been known to attend major events in the past.

Japan general fired for racist essay

Tokyo (AP) — A Japanese general was fired from his post as commander of the Japan Self-Defense Forces' 1st Air Division after it was discovered he had written a racist essay in 1989.

The essay, which was found in a collection of his personal papers, contained a number of racist statements, including a claim that the Japanese race was superior to other races.

The general, who was 57 years old at the time, was fired from his post as commander of the 1st Air Division, which is based in Misawa, Japan.

Figure 1 is a line graph showing the effect of temperature on the growth of *E. coli*. The x-axis represents Temperature in degrees Celsius (°C), ranging from 0 to 60. The y-axis represents Growth, measured as OD600, ranging from 0.0 to 1.0. Three data series are plotted: 1) 10°C (solid line with circles), 2) 37°C (dashed line with squares), and 3) 55°C (dotted line with triangles). The 37°C curve shows the highest growth, peaking at approximately 0.9 at 37°C. The 10°C curve peaks at approximately 0.6 at 20°C. The 55°C curve shows no growth.

Thriller night in NBA

Raptors, Grizzlies, Blazers
survive Halloween scare

HOUSTON, Nov. 1 (AP) — The NBA's Halloween-themed season opener was a thriller for the Raptors, Grizzlies and Blazers, who all survived scares in their first games.

The Raptors, who were the only team to play on Halloween, defeated the Bulls 101-95 in a game that was interrupted by a power outage in the second quarter.

The Grizzlies, who played on Halloween night, defeated the Suns 101-95 in a game that was interrupted by a power outage in the second quarter.

The Blazers, who played on Halloween night, defeated the Suns 101-95 in a game that was interrupted by a power outage in the second quarter.

11. **Summary**
 The following table shows the results of the analysis of variance for the effect of the treatment on the response variable. The table is divided into two parts: the first part shows the results of the analysis of variance for the effect of the treatment on the response variable, and the second part shows the results of the analysis of variance for the effect of the treatment on the response variable.

Author's address: marco@cs.cmu.edu

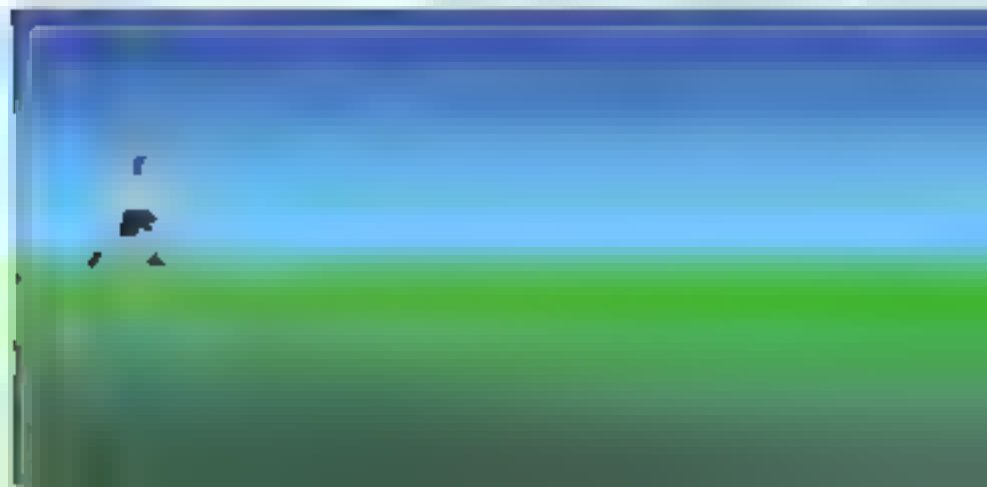

5. **Summary**

The first part of the paper is devoted to the study of the asymptotic behavior of the solutions of the system (1.1) as $\epsilon \rightarrow 0$. In the second part, we study the asymptotic behavior of the solutions of the system (1.1) as $\epsilon \rightarrow 0$. In the third part, we study the asymptotic behavior of the solutions of the system (1.1) as $\epsilon \rightarrow 0$.

Things you shouldn't do before you die

By Marjorie Lim

Aspartame is Permitted Food Additive

The U.S. Food and Drug Administration (FDA) has approved the use of aspartame as a food additive.

What is aspartame? It is a sweetener that is 200 times sweeter than sugar. It is used in many foods and beverages.

In a letter, the FDA references the evaluation of the Food and Drug Administration (FDA) on Food Additives. It states that the FDA has found aspartame to be safe for use in foods and beverages.

Aspartame is safe. The FDA has found that aspartame is safe for use in foods and beverages. It is a sweetener that is 200 times sweeter than sugar. It is used in many foods and beverages.

In fact, it is used in many foods and beverages. It is a sweetener that is 200 times sweeter than sugar. It is used in many foods and beverages.

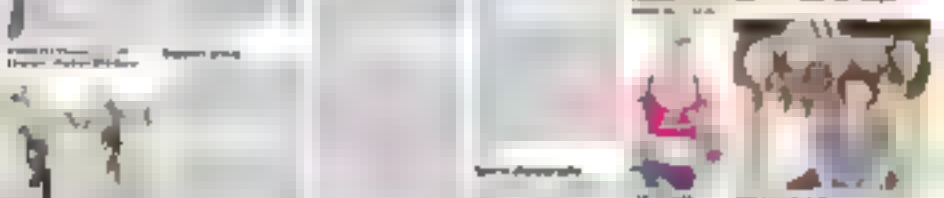

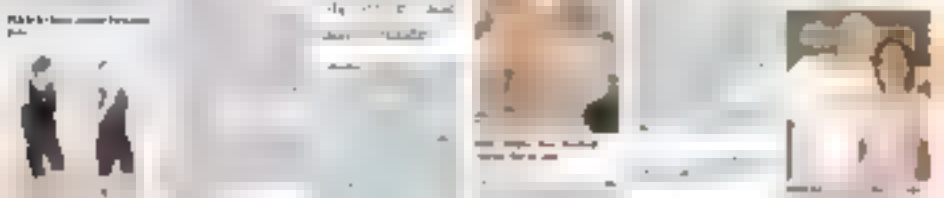

Aspartame is safe. The FDA has found that aspartame is safe for use in foods and beverages. It is a sweetener that is 200 times sweeter than sugar. It is used in many foods and beverages.

There are many foods and beverages that contain aspartame. It is a sweetener that is 200 times sweeter than sugar. It is used in many foods and beverages.

Mini Coopers on parade

By David H. Hines

IN THE 1960s, the Mini Cooper was a small, affordable, and fun car. It was a car that could be customized in a variety of ways, and it was a car that was easy to drive. The Mini Cooper was a car that was loved by many people, and it was a car that was a part of the Mini Cooper legend.

Things you shouldn't do

1. Don't drink and drive. It's a common mistake to think that a little bit of alcohol won't hurt. But even a small amount of alcohol can impair your judgment and reaction time, making it dangerous to drive. Always drink responsibly and never drink and drive.

2. Don't use your cell phone while driving. Even if you're not talking on the phone, simply holding it can distract you from the road. If you must use your phone while driving, pull over to a safe location first.

3. Don't speed. Speeding is a leading cause of traffic accidents and fatalities. It also increases the risk of insurance claims and fines. Always drive at the posted speed limit.

4. Don't tailgate. Tailgating is a dangerous driving habit that can lead to rear-end collisions. Always maintain a safe following distance from the car in front of you.

5. Don't drink and drive. It's a common mistake to think that a little bit of alcohol won't hurt. But even a small amount of alcohol can impair your judgment and reaction time, making it dangerous to drive. Always drink responsibly and never drink and drive.

Fashion brands are weathering the storm

Page 100

The fashion industry is weathering the storm, with many brands reporting a decline in sales. However, some brands are managing to maintain their market share by offering high-quality products and excellent customer service. The industry is also seeing a shift towards sustainable and ethical fashion, with many brands adopting eco-friendly practices. This shift is driven by a growing awareness of the environmental and social impact of the fashion industry. Brands are also focusing on digital marketing and e-commerce to reach a wider audience. The industry is expected to continue to evolve and adapt to the challenges of the current market.

The first Multiple Intelligence School in the Philippines

MULTIPLE INTELLIGENCE INTERNATIONAL SCHOOL

Multiple Intelligence International School is a private school that provides a unique learning environment for students. The school is based on the theory of Multiple Intelligence, which states that each person has a different combination of eight intelligences. The school's curriculum is designed to develop these intelligences in a holistic way, ensuring that students are well-rounded and capable of achieving their full potential.

With a focus on individualized learning, the school offers a variety of programs and activities that cater to different learning styles. From traditional classroom instruction to hands-on projects and experiential learning, the school ensures that every student is engaged and motivated.

For more information, please contact us at info@miis.edu.ph or call us at (02) 1234 5678.

Cardinal Rosales gives SM mainarch his bishop's cross

WASHINGTON, D.C. — Cardinal Jaime L. Sin, O.S.A., of the Philippines, has been elected president of the World Council of Churches (WCC) for a three-year term, beginning in 2009. Sin, 78, was elected by a vote of 100 to 97 over his closest rival, Archbishop Desmond Tutu of South Africa. Sin is the first Filipino to hold the position of president of the WCC, which is the largest ecumenical organization in the world, with over 350 member churches and 100 million members.

PURE PLEDGE — The Philippine Episcopal Conference (PEC) has issued a statement of support for Cardinal Sin's election to the presidency of the WCC. The statement, issued on Nov. 1, 2008, expressed the PEC's confidence in Sin's leadership and his commitment to the promotion of Christian unity and peace in the Philippines and the world.

Cardinal Jaime L. Sin, O.S.A., of the Philippines, has been elected president of the World Council of Churches (WCC) for a three-year term, beginning in 2009.

I spent three or so hours last week looking over the 2007-2008 Budget (which I think is the only Budget in circulation as we all wait for the 2008-2009 Budget) and I am getting the feeling the only big improvement from last time

I live a busy life, but the one rule I set myself was to try things. Not necessarily to be successful, just to find out what makes me feel better. And sometimes that means taking a little time to do something that makes me feel good. It's not about being perfect, it's about being happy. And that's what I want to do.

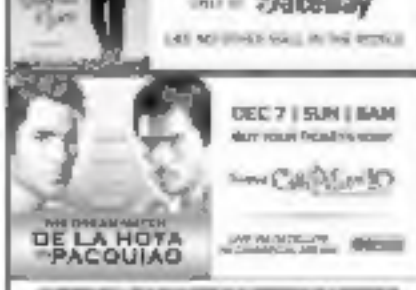

Keywords: *adolescents, delinquency, family, school, social support*

Publication: *Journal of the American Statistical Association*, 1994, 89(427), 1031-1040.

the following: (i) $\mathcal{H}^1(\partial\Omega) < \infty$ and (ii) $\mathcal{H}^1(\partial\Omega) > 0$. Moreover, the assumption (ii) is satisfied if Ω is a domain with nonempty interior.

And, I'm confident that I'll have many more opportunities to work with you in the future. I'll be sure to keep you up to date on any new developments.
